One of Kynectiv's core products – DecisionSim – is a simulation platform that offers three core, proven benefits. Name **one** of them.

SPORTS

Prova

Philadelphia 76ers guard Ben Simmons was scheduled to play his first NBA game tonight, but he broke out in a ferocious rash and is running a high-grade fever after eating a bag of toffee almonds from one of the stadium vendors. Team doctors are stumped as to the cause of his malady. Which one of Prova's current activities might help them make the correct diagnosis?

Global Academy for Medical Education

Since Philadelphia 76ers center Joel Embiid is out for another season and has plenty of time on his hands, he decides he wants to attend the 13th Annual Coastal Dermatology Symposium in Portland, OR, and stay at the conference hotel. Which hotel should he consequently book?

Educational Measures

Another game riding the bench for former Philadelphia 76ers prospect Jahlil Okafor. Sigh. Instead of wasting the evening, he takes out his iPad to interact with his 3 fans through Educational Measures' proprietary live meeting technology. What is the name of that technology?
