

CLUEDO PALOOZA

CHARACTERS

Med Learning Group

They couldn't get **Colonel Mustard** on camera, but Med Learning Group did receive a testimonial from one of its faculty members on the EMPOWER breast cancer initiative. Name her.

ANSWER: Sara Hurvitz

Answers in CME

J. Edgar Hoover must not have been available, so Answers in CME instead used this patient for their recent virtual live symposium focused on cardiovascular risk reduction among patients with Type 2 diabetes (hint: Check their Twitter feed).

ANSWER: Phylliss Starks Woody

infograph-ed

Professor Plum is a by-the-book kind of guy. Some might call him "conventional." Leave it to the team at infograph-ed to take this conventional fellow and turn him, like a conference poster, into what?

ANSWER: Something distinctive

Excalibur Medical Education

The Cook didn't have any speaking lines and really was only on screen for a few seconds (with a cleaver in her back to boot). But hey, maybe she just died from getting smoke in her eyes, which could have been avoided if she had read through the Excalibur Medical Education blog and picked up this handy – and fictitious – gadget.

ANSWER: Left-handed smoke shifter

Vindico Medical Education

Mr. Body was the mastermind behind the dinner party (or was he?), just like this clinician was the mastermind as course chair behind Vindico's obesity forum.

ANSWER: Robert F. Kushner, MD, MS, FACP, FTOS, DABOM

Academy for Continued Healthcare Learning (ACHL)

I always liked **Miss Scarlett**. She was bold, brash, and wasn't afraid to stand up to the fellas. Perhaps she would have been a good choice to be elected president of this patient advocacy group that partners with ACHL.

ANSWER: Girls with Guts

PVI

Yvette was a bit over the top for me – your stereotypical French maid. But there is nothing stereotypical about any one of PVI's upcoming live symposia events featuring one or more foreign (i.e., non-U.S. based) faculty members. Name one of these programs.

ANSWER: Bruton Tyrosine Kinase Inhibitors for MS: Progress in the Development of an Emerging Therapeutic Approach, Achieving Innovation in CLL Care: Evidence-Informed Choices With Targeted Options and Next Steps in Disease Management

Evolve Medical Education

Mrs. White is, shall we say, a bit daft. Her husband asked her to print his CE certificate from an online activity he completed through the Evolve Medical Education website but she can't figure out to do so. What are the instructions that she should follow?

ANSWER: Log in with your User ID and password and go to "MyCE." Near the top of the page, go the section titled "Certificates." You can re-print any certificates from courses you have completed previously at www.evolvedmed.com.

PeerAudience

Little known fact: **The Cop** also dabbled in computer programming (who knew?). If he chose to take a job with Peer Audience, he would be tasked to make sure that all of the activities hosted on their platform were programmed in this format.

ANSWER: HTML5

PlatformQ Health Education

PlatformQ Health Education is focused on incorporating the patient voice into a lot of their education, and even invites patients to serve as learners for some of their activities. I think I saw **Mr. Green** in the audience at one recent session. They offer four different ways for patients to engage in real-time with presenters and presentations. Name one of them.

ANSWER: Send questions to panelists in real time, Respond to polls with other learners, Download additional resources (financial and mental health resources, lifestyle tips, etc) and slide presentations, Send questions, thoughts and responses directly to presenters

Spire Learning

Mrs. Peacock is a social butterfly, flitting around from person to person to learn their life history (she is, after all, the wife of a senator). While I'm not 100% sure, I think she values the same qualities in relationships as the team at Spire Learning. What is this cornerstone value (hint: watch the YouTube video)?

ANSWER: Relationships built on trust and integrity

WEAPONS

Physicians' Education Resource

Put down the **Revolver**! You don't want to get in way of the bullets in this branded series used by Physicians' Education Resources in both the live virtual and enduring settings.

ANSWER: Medical Crossfire

Creative Educational Concepts

Oh no, the electricity just went out! Don't worry, just break out the **Candlestick** so you can read through one of these posters presented by Creative Educational Concepts at the 2021 ASCO Virtual Meeting.

ANSWER: The Impact of An Expert Exchange-Based Educational Initiative on Urologist Confidence and Knowledge in Implementing Immunotherapy for Bladder Cancer or The Impact of Live Education on the Competence and Performance of Oncology Practitioners Who Care For Patients with Ovarian Cancer

Medscape Education

One of these days, it's going to be trendy to carry around an **Umbrella** (just don't poke anyone in the eye with it!). Medscape Education already knows what is trendy. At this very minute, what is the trendiest of articles on their website?

ANSWER: Will vary (today is CDC Study Says Moderna Vaccine More Effective Than Pfizer and J&J)

Academic CME

The **Knife** can be a deadly weapon. Academic CME doesn't have vengeance in mind, however, taking a different approach by nicking you one Tweet at a time through their Tweetorials in one of these two therapeutic areas.

ANSWER: Migraine and multiple sclerosis

Prova Education

As our immune systems develop, it's important to expose children to various pathogens so they can learn to fight off disease. However, don't let them sample a **Poisoned Drink**. Instead, listen to guidance from this faculty member of a Prova Education book club program who argues that dirt is good for children.

ANSWER: Dr. Jack Gilbert

Integrity CE

No need to stick a **Lead Pipe** up your nose to clear those breathing passages. Just take a listen to one of these livestream events from Integrity CE in October focused on this therapeutic area.

ANSWER: Chronic rhinusinitis with nasal polyps

RedMedEd

Grab your tool belt (and don't forget a **Wrench**) as you experience RedMedEd's branded activity series that extends the concept of the virtual patient by providing a firsthand, first-person perspective of the everyday realities of living with a medical condition. Name the series title.

ANSWER: Day in the Life

Global Education Group

Be careful that this member of the Global Education Group team doesn't take a dog collar off of Indiana Bones and fashion it as a **Rope** to hogtie you to the fence (or worse!).

ANSWER: Liddy Knight

ROOMS

Projects In Knowledge

Who needs to go into the office? Take a seat in the **Lounge** and queue up Projects In Knowledge's Immunization Morning Commute where you can choose from one of these five topics.

ANSWER: Debunking Vaccine Myths, Making the Case for Vaccines, Vaccine Hesitancy During a Global Pandemic, Working Toward Health Equity Through Vaccination, The Remarkable History of Vaccines

CMEology

Step into the **Billiard Room** for a debate about the pros and cons of sinking the 8 ball on the break. After that's done, stick around for CMEology's "Debate on 8" that focuses on patients with this condition.

ANSWER: Hemophilia A

Med-IQ

Obviously, the team at Med-IQ spends a lot of time in the **Library** (otherwise, they'd be Med-NoIQ). One thing they have started to do is create "Find the Errors" cartoons, including a recent one focused on action around the hospital ER handoff area. Name one of the errors in the cartoon.

ANSWER: Lack of Attention, Unprofessionalism, Privacy Breaches, Quality-of-Care Issues, Lack of Documentation

Write Medicine

Nothing like be-bopping down the **Hall** listening to your latest and favorite podcast. One of WriteMedicine's podcasts that you'll be grooving to was clearly a notch above the rest due to its suave and dapper guest (be quiet, Derek!). List the title of this podcast.

ANSWER: Writing Medical Case Studies: The Details Matter

CME Outfitters

Excuse me, but I think you've got something in your teeth. Bust out a toothpick, take a step out of the **Dining Room**, and maybe, while you have a minute or two, check out this upcoming CME Outfitters program focused on the choppers of minority patients.

ANSWER: Promoting Equitable Oral Health in Patients of Color

DKBmed

Step into the **Study** where you are likely to find this member of the DKBMed team focused intently on a high-stakes word game.

ANSWER: Ashleigh Winter

epocrates

epocrates offers learning that fits into busy schedules, with a very specific kind of content that might be best consumed in the **Kitchen**. What type of content is this?

ANSWER: Snackable content

RealCME

In the **Library**, you learn practical solutions to life's problems. RealCME also offers a series of activities focused on practical solutions across the spectrum of care. Name one of them.

ANSWER: Practical Solutions Across the Spectrum of Care - HIV in Women, Practical Solutions Across the Spectrum of Care - Rapid ART, Practical Solutions Across the Spectrum of Care - The Aging HIV Population: Comorbidity Roll Call

RMEI Medical Education

You never know what kind of weird critters and fungi you'll find in the **Conservatory**. But participate in the recent RMEI program to get a sense of the importance of applying real-world data for antimicrobials in clinical practice.

ANSWER: Real-World Antimicrobial Data in Clinical Practice: Broadening Coverage at the Bedside: A Clinical Forum

Healio CME

You'll be able to get back to busting a move in the **Ballroom** after high-stepping through this AI-based virtual patient simulation (VPS) series developed by Healio CME for orthopedic surgeons.

ANSWER: Patient-centered Standards of Care in Osteoarthritis: Managing Pain and Improving Function
